Elwood, New Jersey 08217

Dear Board Members:

The comprehensive annual financial report of the Mullica School District ("District") for the fiscal year ending June 30, 2012 is hereby submitted. Responsibility for both the accuracy of the data and completeness and fairness of the presentation, including all disclosures, rests with the management of the Mullica Board of Education ("Board"). To the best of our knowledge and belief, the data presented in this report is accurate in all material respects and is reported in a manner designed to present fairly the financial position and results of operation of the various funds and account groups of the District. All disclosures necessary to enable the reader to gain an understanding of the District's financial activities have been included.

The comprehensive annual financial report is presented in four sections: introductory, financial, statistical and single audit. The introductory section includes this transmittal letter, the District's organizational chart, a roster of principal officials and a list of consultants and advisors. The financial section includes the district-wide and fund financial statements and schedules, as well as the auditor's report and the Management's Discussion and Analysis. The statistical section includes selected financial statements and schedules as well as information generally presented on a multi-year basis.

The District is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984, the U.S. Office of Management and Budget ("OMB") Circular A-133, Audits of States, Local Governments and Non-Profit Organizations, and the State Treasury OMB Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid Payments. Information related to this single audit, including the auditor's report on the internal control structure and compliance with applicable laws and regulations and findings and recommendations, are included in the single audit section of this report.

Respectfully submitted,

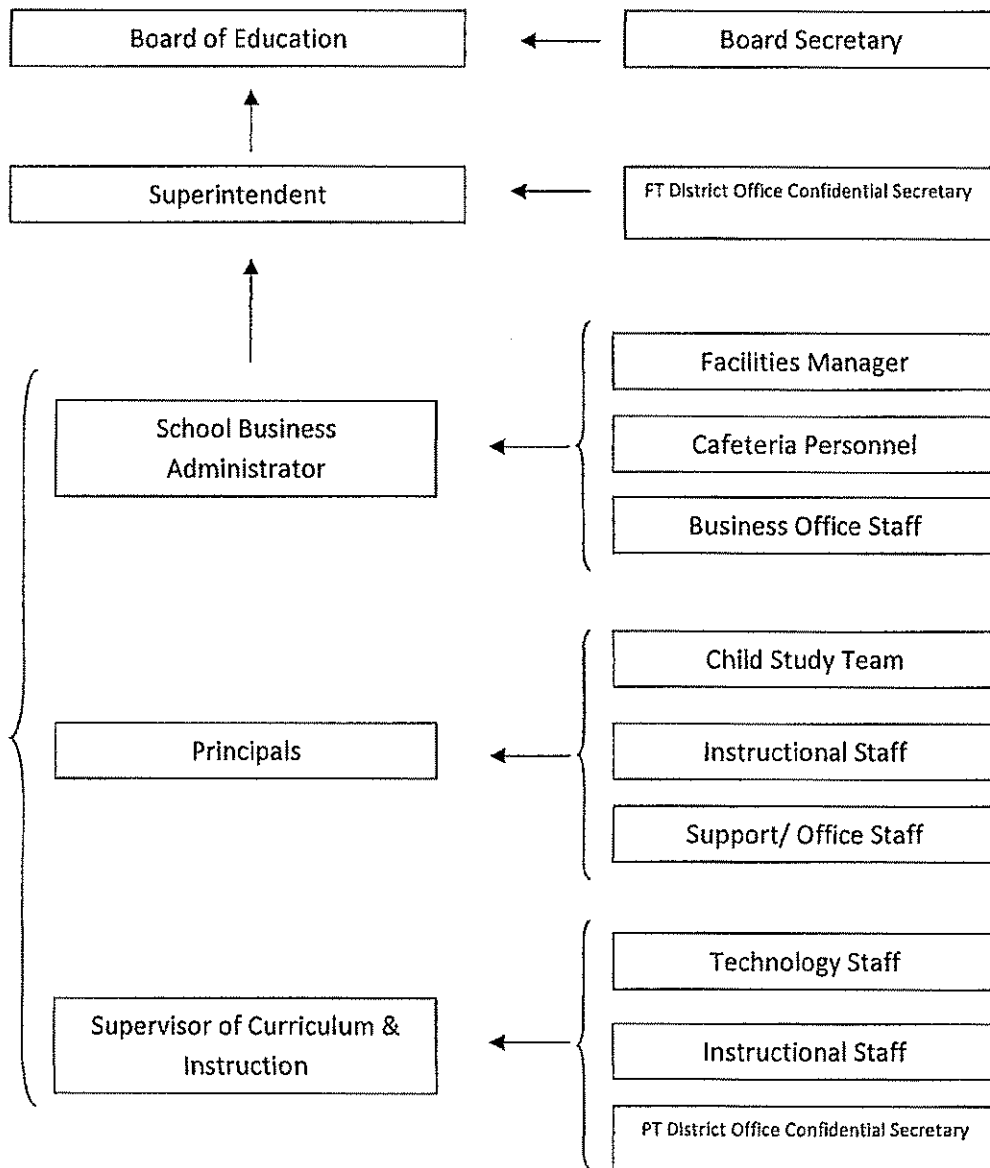

Brenda Harring-Marro

INDEPENDENT AUDITOR'S REPORT

Honorable President and Members
of the Board of Education
Mullica School District
County of Atlantic
Mullica, New Jersey

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Board of Education of the Mullica School District, in the County of Atlantic, State of New Jersey as of and for the fiscal year ended June 30, 2012, which collectively comprise the District's basic financial statements as listed in the Table of Contents. These financial statements are the responsibility of the Mullica Board of Education's management. Our responsibility is to express opinions on these financial statements based on our audit.

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States; and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audit provides a reasonable basis for our opinions.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Mullica Board of Education, in the County of Atlantic, State of New Jersey, as of June 30, 2012, and the respective changes in financial position and cash flows, where applicable, thereof for the year then ended in conformity with accounting principles generally accepted in the United States of America.

Honorable President and Members
of the Board of Education
Mullica School District
County of Atlantic
Mullica, New Jersey
Page 2

In accordance with Government Auditing Standards, we have also issued our report dated August 8, 2012 on our consideration of the Mullica Board of Education's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards and should be considered in assessing the results of our audit.

Accounting principles generally accepted in the United States of America require that the Management's Discussion and Analysis and Budgetary Comparison information on pages 8 through 14 and 55 through 62 be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted to inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Mullica Board of Education's financial statements as a whole. The Introductory Section, Combining and Individual Fund Financial Statements, and Statistical Section are presented for purposes of additional analysis and are not a required part of the financial statements. The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance are presented for purposes of additional analysis as required by U.S. Office of Management and Budget ("OMB") Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations; and New Jersey OMB Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants, and State Aid, respectively, and are also not a required part of the financial statements. The Combining and Individual Fund Financial Statements and the Schedules of Expenditures of Federal Awards and State Financial Assistance are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to

prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole. The Introductory and Statistical Sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on them.

REQUIRED SUPPLEMENTARY INFORMATION – PART I

MULLICA TOWNSHIP BOARD OF EDUCATION
MANAGEMENT'S DISCUSSION AND ANALYSIS
FISCAL YEAR ENDED JUNE 30, 2012

UNAUDITED

This section of the Mullica Township Board of Education's Comprehensive Annual Financial Report presents our discussion and analysis of the District's financial performance during the fiscal year that ended on June 30, 2012. Please read it in conjunction with the Transmittal Letter at the front of this report and the District's financial statements, which immediately follow this section.

Management's Discussion and Analysis ("MD&A") is a new element of Required Supplementary Information specified in the Governmental Accounting Standards Board's ("GASB") Statement No 34 –*Basic Financial Statements-Management's Discussion and analysis-for State and Local Governments* issued in June 1999 that is now being required by the New Jersey State Department of Education. Certain comparative information between the current and fiscal year (2011-2012) and the prior fiscal year (2010-2011) is required to be presented in the MD&A.

OVERVIEW OF THE FINANCIAL STATEMENTS

The Discussion and Analysis is intended to serve as an introduction to the District's basic financial statements. The District's basic financial statements comprise three components: 1) District-wide financial statements; 2) Fund financial statements; and 3) Notes to the Financial Statements. This report also contains required supplementary information and other supplementary information in addition to the basic financial statements themselves.

District-wide financial statements: The District-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The Statement of Net Assets (Exhibit A-1) presents information on all of the assets and liabilities of the District, with the difference between the two reported as net assets. Over time, increases and decreases in net assets may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The Statement of Activities (Exhibit A-2) presents information on all of the assets of the District changed during the most recent fiscal year. All changes in net assets are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this Statement for some items that will only result in cash flows in future fiscal periods.

The District-wide financial statements can be found as Exhibits A–1 and A–2 in this report.

Fund financial statements: A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into three categories: governmental funds, proprietary funds, and fiduciary funds.

Governmental funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the District-wide financial statements. However, unlike the District-wide financial statements, governmental fund financial statements focus on the near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the District's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the District-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the District-wide financial statements. By doing so, readers may better understand the long-term impact of the District's near-term financing decision. Both the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains four individual governmental funds. Information is presented separately in the governmental fund Balance Sheet and the governmental fund Statement of Revenues, Expenditures, and Changes in Fund Balance for the General Fund, Special Revenue Fund, Capital Projects Fund, and Debt Service Fund.

The basic governmental fund financial statements can be found as Exhibits B-1 through B-3 in this report.

Proprietary Funds

The District maintains one proprietary fund type, an Enterprise Fund. The Enterprise Fund is used to account for operations that are financed and operated in a manner similar to private business enterprises, where the intent of the District is that the costs of providing goods or services be financed through user charges. The Food Services Enterprise Fund provides for the operation of food services in all schools within the District. The proprietary fund has been included within business-type activities in the District-wide financial statements.

The Food Service Fund and Latchkey Program detail financial statements can be found as Exhibits B-4 through B-6 in this report.

Fiduciary Funds

Fiduciary funds are used to account for resources held for the benefit of parties outside the governmental entity. Fiduciary funds are not reflected in the District-wide financial statements because the resources of those funds are not available to support the District's own programs.

The District uses Trust and Agency Funds to account for resources held for Student Activities and Groups, for Payroll transactions and for the District's Unemployment Trust Fund.

The basic fiduciary fund financial statements can be found as Exhibit B-7 and B-8 in this report.

Notes to the Financial Statements: The Notes provide additional information that is essential for a full understanding of the data provided in the District-wide and fund financial statements. The Notes to the Financial Statements can be found after the fund financial statements in this report.

Other Information: The combining and individual fund statements referred to earlier in connection with governmental and enterprise funds are presented immediately following the Notes to the Financial Statements.

FINANCIAL HIGHLIGHTS

Key financial highlights for 2012 are as follows:

- The General Fund's portion of the local tax levy has not increased from FY 10-11 to FY 11-12. The General Fund's Local Tax Levy is \$ 3,358,991.
- The Debt Service Fund's portion of the local tax levy is \$471,839.
- The General Fund's unassigned fund balance is \$280,265.
- State Aid was increased by \$ 75,565.

District-wide Financial Analysis

As noted earlier, Net Assets may serve over time as a useful indicator of the District's financial position. The following table provides a summary of Net Assets:

	Governmental <u>Activities</u>	Business-type <u>Activities</u>	<u>Total</u>
Assets:			
Current and Other Assets	\$ 2,237,817	\$ 68,689	\$ 2,306,506

Total Assets	<u>17,656,841</u>	<u>85,179</u>	<u>17,742,020</u>
Liabilities:			
Long-Term Liabilities	3,230,158		3,230,158
Other Liabilities	<u>580,196</u>	<u>2,999</u>	<u>583,195</u>
Total Liabilities	<u>3,810,354</u>	<u>2,999</u>	<u>3,813,353</u>
Net Assets:			
Invested in Capital Assets, Net of Related Debt	11,955,886	16,490	11,972,377
Restricted	1,913,383		1,913,383
Unrestricted	<u>(22,783)</u>	<u>65,689</u>	<u>42,906</u>
Total Net Assets	<u>\$ 13,846,486</u>	<u>\$ 82,179</u>	<u>\$ 13,928,665</u>

The District's largest net asset is the restricted portion of the Net Assets shown above. Restricted Assets represent resources that are subject to external restrictions on how they may be used.

The Unrestricted Net Assets may be used to meet the District's ongoing obligations to students, employees, and creditors. The Unrestricted Net Assets include the amount of long-term obligations that are not invested in Capital Assets, such as Compensated Absences.

At the end of the current fiscal year, the District is able to report a positive balance in total net assets. The same situation held true for the prior fiscal year.

The following table provides a summary of revenues and expenses for the District's governmental and business-type activities and the change in net assets from the prior year:

	Governmental Activities	Business-type Activities	Total
Revenues			
Program Revenues:			
Charges for Services	\$ 280,795	\$ 171,183	\$ 451,978

Financial Analysis of the District's Funds

As noted earlier, the District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds: The focus of the District's governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such Information is useful in assessing the District's financing requirements. The unreserved fund balance is divided between designated balances and undesignated balances. The Capital Projects Fund is restricted by state law to be spent for the purpose of the Fund and is not available for spending at the District's discretion.

Financial Information at Fiscal Year-End

The following schedule presents a summary of the General Fund, Special Revenue Fund, and Debt Service Fund revenues for the fiscal year ended June 30, 2012 and the amount and percentage of increases and (decreases) in relation to prior-year revenues. The Capital Projects Fund has been excluded, as amounts vary substantially from year to year.

	<u>Revenue</u>	<u>Percent of Total</u>	<u>Increase/ (Decrease) From 2010/11</u>	<u>Percent of Increase/ (Decrease)</u>
Local Sources	\$ 4,138,739	34.70%	\$ 230,305	5.56%
State Sources	6,717,325	56.31	309,020	4.60
Federal Sources	<u>1,072,497</u>	<u>8.99</u>	<u>92,138</u>	8.59
Total	<u>\$ 11,928,561</u>	<u>100.00%</u>	<u>\$ 631,463</u>	<u>5.29%</u>

The Local revenue increase is due to sent/received tuition revenues.

The State revenue increase is due to 2011-12 additional State Aid.

The Federal revenue increase is due to Federal Jobs Funding.

The following schedule presents a summary of the General Fund, Special Revenue Fund, and Debt Service Fund for the fiscal year ended June 30, 2012 and the percentage of increase and (decrease) in relation to prior-year amounts. The Capital Projects Fund has been excluded as amounts vary substantially from year to year.

<u>Expenditures</u>	<u>Amount</u>	<u>Percent of Total</u>	<u>Increase (Decrease) From 2010/11</u>	<u>Percent of Increase (Decrease)</u>
Current Expenditures:				
Instruction	\$ 4,775,167	42.45%	\$ 62,496	1.31%
Undistributed	5,774,973	51.34	222,284	3.85
Capital Outlay	99,963	0.89	10,241	10.24
Debt Service	<u>598,254</u>	<u>5.32</u>	<u>(14,699)</u>	(2.46)
Total	<u>\$ 11,248,357</u>	<u>100.00%</u>	<u>\$ 280,322</u>	<u>2.49%</u>

The increase in Expenditures is due to the new Tween Playground equipment and general cost increases.

General Fund Budgetary Highlights

The Mullica Board of Education boasts prudent fiscal management in the implementation of cost savings measures in collaboration with consortium involvement for District-wide supplies, transportation, and banking services and liability insurance. Significant Insurance savings were realized this year. Cafeteria outsourcing reduced districts' contribution towards food service enterprise account. The District experienced savings in new staff replacements of retiring staff thereby reinstating librarian. Thus, continuous monitoring of district spending trends has allowed for the succeeding budget to have minimal taxpayer impact. The district has started to advance in the new technology initiative guidelines: PARCC – Partnership for the Assessment of Readiness for College and Careers. This will enable added bandwidth to support substantial in-class technology programs and newly acquired i-pads for students. Additionally the district continues to progress in the Danielson Model of evaluations and has invested in required trainings and software. The district continues to work towards facilities improvements and upgrades; this year's focus was in second grade wing and elementary district office.

Proprietary Funds

The District's Proprietary Fund provides the same type of information found in the District-wide financial statements, but in more detail.

The Food Service/Childcare Latchkey Enterprise Fund's operating income increased by \$35,218 from the operating income in 2010-11, from \$135,965 to \$171,183. The Unrestricted Net Assets of the Food Service and Latchkey Program were \$65,689 at June 30, 2012.

Capital Assets

At June 30, 2012, the District had Capital Assets of almost \$15,419,024, net of depreciation, which includes Site and Site Improvements, Buildings and Buildings Improvements, and Machinery and Equipment.

Additional information on the District's Capital Assets can be found in Note 11 to the basic financial statements.

Debt Administration and Other Obligations

At June 30, 2012, the District's outstanding debt issues included \$2,805,000 of general obligation bonds and \$161,017 of obligations under capital leases.

Additional information on the District's debt administration and other obligations can be found in Note 5 to the basic financial statements.

Economic Factors and Next Year's Budget

The District anticipates that the approved 2012-2013 budget will be adequate to satisfy all 2012-2013 financial needs, barring any significant unexpected situations or conditions unforeseen at this time. The 3 year contractual Agreement between Mullica Township Board of Education and Mullica Township Education Association expires June 30, 2013.

Requests for Information

This financial report is designed to provide a general overview of the Mullica Township School District's finances for all those with an interest in the District's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the Business Administrator/Board Secretary's Office, Mullica Township Board of Education, PO Box 318, 500 Elwood Road, Elwood, New Jersey 08217.

BASIC FINANCIAL STATEMENTS

DISTRICT-WIDE FINANCIAL STATEMENTS

The Statement of Net Assets and the Statement of Activities display information about the District. These Statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These Statements distinguish between the governmental and business-type activities of the District.

Amounts reported for *governmental activities* in the statement of net assets (A-1) are different because:

The costs associated with the issues of the various bonds are expensed in the governmental funds in the year the bonds are issued but are capitalized on the statement of net assets. The bond issuance cost are \$47,400.80 and the accumulated amortization is \$3,646.22.

43,754.58

Capital assets used in governmental activities are not financial resources and therefore are not reported in the governmental funds. The cost of the assets is \$21,831,625.98 and the accumulated depreciation is \$6,412,601.99 (See Note 11).

15,419,023.99

Long-term liabilities, including bonds payable, are not due and payable in the current period and therefore are not reported as liabilities in the fund (See Note 12).

(3,714,318.24)

Accrued interest on long-term liabilities is not reported as a liability in the fund.

RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES
AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS
TO THE STATEMENT OF ACTIVITIES

For the fiscal year ended June 30, 2012

Total Net Change in Fund Balances - Governmental Funds (from B-2)	\$ 619,628.95
Amounts reported for governmental activities in the Statement of Activities (A-2) are different because:	
Capital outlays are reported in governmental funds as expenditures. However, on the Statement of Activities, the cost of those assets is allocated over their estimated useful lives as depreciation expense. This is the amount by which depreciation exceeded capital outlay in the current fiscal year.	
Depreciation Expense	\$ (419,166.47)
Capital Outlay	<u>69,700.95</u>
	(349,465.52)
Repayment of bond and loan principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets and is not reported in the Statement of Activities.	464,949.15
Repayment of capital lease principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the Statement of Net Assets and is not reported in the Statement of Activities.	45,465.22
Bond discount, bond premium and issuance costs are amortized over the lives of the bonds in the Statement of Activities but are recorded as an addition from the proceeds from sales of bonds in the governmental funds.	(2,030.75)
Losses on refunding bonds are amortized over the life of the defeased bonds; these losses are a reduction to the reconciliation.	(91,000.00)
In the Statement of Activities, certain operating expenses, e.g., compensated absences (vacation and sick pay) are measured by the amounts earned during the year. In the governmental funds, however, expenditures for these items are reported in the amount of financial resources used (paid). When the earned amount exceeds the paid amount, the difference is a reduction in the reconciliation; when the paid amount exceeds the earned amount, the difference is an addition to the reconciliation.	(32,299.00)
In the Statement of Activities, interest on long-term debt is accrued, regardless of when due. In the governmental funds, interest is reported when due. The (decrease)/increase in accrued interest from the previous year is an increase/(decrease) in the reconciliation.	(24,000.04)
Change in Net Assets of the Internal Service Fund	<u>141,147.04</u>
Change in Net Assets of Governmental Activities	<u>\$ 772,395.05</u>

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Board of Education ("Board") of the Mullica School District ("District") have been prepared in conformity with accounting principles generally accepted in the United States of America ("GAAP") as applied to governmental units. The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The more significant of the Board's accounting policies are described below.

A. Reporting Entity:

The Board is an instrumentality of the State of New Jersey, established to function as an educational institution. The Board consists of elected officials and is responsible for the fiscal control of the District. A Superintendent is appointed by the Board and is responsible for the administrative control of the District.

The primary criterion for including activities within the District's reporting entity, as set forth in Section 2100 of the GASB Codification of Governmental Accounting and Financial Reporting Standards, is whether:

- the Organization is legally separate (can sue or be sued in their own name)
- the District holds the corporate powers of the Organization
- the District appoints a voting majority of the Organization's Board
- the District is able to impose its will on the Organization
- the Organization has the potential to impose a financial benefit/burden on the District
- there is a fiscal dependency by the Organization on the District

Based on the aforementioned criteria, the District has no component units.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

B. Basis of Presentation, Basis of Accounting:

The School District's basic financial statements consist of District-wide statements, including a Statement of Net Assets and a Statement of Activities, and Fund Financial Statements which provide a more detailed level of financial information.

Basis of Presentation

District-Wide Statements: The Statement of Net Assets and the Statement of Activities display information about the District as a whole. These Statements include the financial activities of the overall District, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities. These Statements distinguish between the governmental and business-type activity of the District. Governmental activities generally are financed through taxes, intergovernmental revenues, and other nonexchange transactions. Business-type activities are financed in whole or in part by fees charged to external parties.

The Statement of Net Assets presents the financial condition of the governmental and business-type activity of the District at fiscal year-end. The Statement of Activities presents a comparison between direct expenses and program revenues for the business-type activity of the District and for each function of the District's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) fees and charges paid by the recipients of goods or services offered by the programs and (b) grants and contributions that are restricted to meeting the operational or capital requirements of a particular program. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues. The comparison of direct expenses with program revenues identifies the extent to which each governmental function or business segment is self-financing or draws from the general revenues of the District.

Fund Financial Statements: During the fiscal year, the District segregates transactions related to certain District functions or activities in separate funds in order to aid financial management and to demonstrate legal compliance. The Fund Financial Statements provide information about the District's funds, including its fiduciary funds. Separate statements for each Fund category – governmental, proprietary, and fiduciary – are presented. The New Jersey Department of Education ("NJDOE") has elected to require New Jersey districts to treat each governmental fund as a major fund in accordance with the option noted in GASB No. 34, paragraph 76. The NJDOE believes that the presentation of all funds as major is important for public interest and to promote consistency among District financial reporting models.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

B. Basis of Presentation, Basis of Accounting (Cont'd):

Basis of Presentation (Cont'd):

The District reports the following governmental funds:

General Fund - The General Fund is the general operating fund of the District and is used to account for all financial resources except those required to be accounted for in another fund. Included are certain expenditures for vehicles and movable instructional or noninstructional equipment, which are classified in the Capital Outlay subfund.

As required by the NJDOE, the District includes budgeted capital outlay in this Fund. Generally accepted accounting principles as they pertain to governmental entities state that General Fund resources may be used to directly finance capital outlays for long-lived improvements as long as the resources in such cases are derived exclusively from unrestricted revenues.

Resources for budgeted capital outlay purposes are normally derived from State of New Jersey Aid, District taxes and appropriated Fund Balance. Expenditures are those that result in the acquisition of or additions to Fixed Assets for land, existing buildings, improvements of grounds, construction of buildings, additions to or remodeling of buildings and the purchase of built-in equipment. These resources can be transferred from and to Current Expense by Board resolution.

Special Revenue Fund - The Special Revenue Fund is used to account for the proceeds of specific revenue from State and Federal Government, (other than major capital projects, Debt Service or the Enterprise Funds) and local appropriations that are legally restricted to expenditures for specified purposes.

Capital Projects Fund - The Capital Projects Fund is used to account for all financial resources to be used for the acquisition or construction of major capital facilities (other than those financed by Proprietary Funds). The financial resources are derived from temporary notes or serial bonds that are specifically authorized by the voters as a separate question on the ballot either during the annual election or at a special election.

Debt Service Fund - The Debt Service Fund is used to account for the accumulation of resources for, and the payment of, principal and interest on bonds issued to finance major property acquisition, construction and improvement programs.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

B. Basis of Presentation, Basis of Accounting (Cont'd):

Basis of Presentation (Cont'd):

The District reports the following proprietary fund:

Enterprise (Food Service) Fund - The Enterprise Fund accounts for all revenues and expenses pertaining to the Board's cafeteria operations. The Food Service Fund is utilized to account for operations that are financed and operated in a manner similar to private business enterprises. The stated intent is that the costs (i.e., expenses including depreciation and indirect costs) of providing goods or services to the students on a continuing basis are financed or recovered primarily through user charges.

The District's Enterprise Fund is comprised of the Food Service Fund and the Latchkey Program.

All Proprietary Funds are accounted for on a cost of services or "capital maintenance" measurement focus. This means that all assets and all liabilities, whether current or noncurrent, associated with their activity are included on their balance sheets. Their reported fund equity (net total assets) is segregated into contributed capital and unreserved retained earnings, if applicable. Proprietary Fund-type operating statements present increases/(revenues) and decreases/(expenses) in net total assets.

Depreciation of all exhaustive fixed assets used by Proprietary Funds is charged as an expense against their operations. Accumulated depreciation is reported on Proprietary Fund balance sheets. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives of the equipment used in the operations of the Enterprise Funds are approximately 10 years.

Internal Service Fund – The Internal Service Fund is used to account for the financing of goods or services by one department or office to other departments or offices of the LEA, or to other district boards of education and governmental units, on a cost-reimbursement basis. Internal Service Funds are cost accounting and distribution entities, and are intended to "break even" annually and/or over a period of years.

B. Basis of Presentation, Basis of Accounting (Cont'd):

Basis of Presentation (Cont'd):

The District reports the following fiduciary funds:

Trust and Agency Funds - The Trust and Agency Funds are used to account for assets held by the District in a trustee capacity or as an agent for individuals, private organizations, other governments and/or other funds.

Expendable Trust Fund - An Expendable Trust Fund is accounted for in essentially the same manner as the governmental fund types, using the same measurement focus and basis of accounting. Expendable Trust Funds account for assets where both the principal and interest may be spent. The Expendable Trust Fund includes the Unemployment Compensation Insurance Fund.

Nonexpendable Trust Fund - A Nonexpendable Trust Fund is used to account for assets held under the terms of a formal trust agreement, whereby the District is under obligation to maintain the trust principal.

Agency Funds - Agency Funds are used to account for the assets that the District holds on behalf of others as their agent. Agency Funds are custodial in nature and do not involve measurement of results of operations. Agency Funds include Payroll and Student Activities Funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

B. Basis of Presentation, Basis of Accounting (Cont'd):

Basis of Accounting

Basis of Accounting determines when transactions are recorded in the financial records and reported on the financial statements.

District-Wide, Proprietary, and Fiduciary Fund Financial Statements: The District-wide financial statements are prepared using the accrual basis of accounting. Governmental funds use the modified accrual basis of accounting; the Enterprise Fund and Fiduciary Funds use the accrual basis of accounting. Differences in the accrual basis of accounting arise in the recognition of revenue, the recording of deferred revenue, and in the presentation of expenses versus expenditures. Ad Valorem (Property) Taxes are susceptible to accrual as, under New Jersey State Statute, a municipality is required to remit to its school district the entire balance of taxes in the amount voted upon or certified, prior to the end of the school year. The District records the entire approved tax levy as revenue (accrued) at the start of the fiscal year, since the revenue is both measurable and available. The District is entitled to receive monies under the established payment schedule and the unpaid amount is considered to be an "Accounts Receivable". Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Governmental Fund Financial Statements: Governmental Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Under this method, revenues are recognized when measurable and available. "Measurable" means the amount of the transaction can be determined and "available" means collectible within the current period or soon enough thereafter to be used to pay liabilities of the current period. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. General capital asset acquisitions are reported as expenditures in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as other financing sources.

All governmental and business-type activities and Enterprise Funds of the District follow FASB Statements and Interpretations issued on or before November 30, 1989, Accounting Principles Board Opinions, and Accounting Research Bulletins, unless those pronouncements conflict with GASB pronouncements.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

C. Budgets/Budgetary Control:

Annual appropriated budgets are prepared in the spring of each year for the General, Special Revenue, and Debt Service Funds. The budgets are submitted to the County Office and are voted upon at the annual school election on the third Tuesday in April. Budgets are prepared using the modified accrual basis of accounting, except for the Special Revenue Fund. The legal level of budgetary control is established at line item accounts within each Fund. Line item accounts are defined as the lowest (most specific) level of detail as established pursuant to the minimum chart of accounts referenced in N.J.A.C. 6:20-2A.2(m)1. All budget amendments/transfers must be approved by Board resolution. All budget amounts presented in the accompanying supplementary information reflect the original budget and the amended budget (which have been adjusted for legally-authorized revisions of the annual budgets during the year).

Appropriations, except remaining project appropriations, encumbrances, and unexpended grant appropriations, lapse at the end of each fiscal year. The Capital Project Fund presents the remaining project appropriations compared to current-year expenditures.

Formal budgetary integration into the accounting system is employed as a management control device during the year. For governmental funds there are no substantial differences between the budgetary basis of accounting and generally accepted accounting principles with the exception of the legally mandated revenue recognition of the last state aid payment for budgetary purposes only and the Special Revenue Fund as noted below. Encumbrance accounting is also employed as an extension of formal budgetary integration in the governmental fund-types. Unencumbered appropriations lapse at fiscal year-end.

The accounting records of the Special Revenue Fund are maintained on the grant accounting budgetary basis. The grant accounting budgetary basis differs from GAAP in that the grant accounting budgetary basis recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. Sufficient supplemental records are maintained to allow for the presentation of GAAP basis financial reports. At June 30, 2012, there was a reconciling difference of \$(21,045.00) between the budgetary basis and GAAP basis in the General Fund and of \$20,313.81 in the Special Revenue Fund.

The following presents a reconciliation of the General Fund revenues and Special Revenue Fund revenues and expenditures from the budgetary basis of accounting as presented in the Budgetary Comparison Schedules - General and Special Revenue Funds to the GAAP basis of Accounting as presented in the Combined Statement of Revenues, Expenditures and Changes in Fund Balances - All Governmental Fund Types. Note that the District does not report encumbrances outstanding at year-end as expenditures in the General Fund since the General Fund budget follows modified accrual basis with the exception of the revenue recognition policy for the last state aid payment.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

D. Encumbrance Accounting:

Under Encumbrance Accounting, purchase orders, contracts and other commitments for the expenditure of resources are recorded to reserve a portion of the applicable appropriation. Open encumbrances in governmental funds other than the Special Revenue Fund are reported as reservations of fund balances at fiscal year-end as they do not constitute expenditures or liabilities but rather commitments related to unperformed contracts for goods and services.

Open encumbrances in the Special Revenue Fund, for which the District has received advances, are reflected in the Balance Sheet as deferred revenues at fiscal year-end.

The encumbered appropriation authority carries over into the next fiscal year. An entry will be made at the beginning of the next fiscal year to increase the appropriation reflected in the certified budget by the outstanding encumbrance amount as of the current fiscal year-end.

E. Assets, Liabilities, and Equity:

Cash and Cash Equivalents:

Cash and Cash Equivalents include petty cash, change funds, cash in banks and all highly liquid investments with a maturity of three months or less at the time of purchase and are stated at cost plus accrued interest. U.S. Treasury and agency obligations and certificates of deposit with maturities of one year or less when purchased are stated at cost. All other investments are stated at fair value.

New Jersey school districts are limited as to the types of investments and types of financial institutions they may invest in. New Jersey statute 18A:20-37 provides a list of permissible investments that may be purchased by New Jersey school districts.

N.J.S.A. 17:9-41 et seq. establishes the requirements for the security of deposits of governmental units. The statute requires that no governmental unit shall deposit public funds in a public depository unless such funds are secured in accordance with the Act. Public depositories include Savings and Loan institutions, banks (both state and national banks) and savings banks the deposits of which are federally insured. All public depositories must pledge collateral, having a market value of at least equal to five percent of the average daily balance of collected public funds, to secure the deposits of Governmental Units. If a public depository fails, the collateral it has pledged, plus the collateral of all other public depositories, is available to pay the full amount of their deposits to the Governmental Funds.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Assets, Liabilities, and Equity (Cont'd):

Interfund Transactions:

Transfers between Governmental and Business-type activities on the District-wide statements are reported in the same manner as general revenues.

Exchange transactions between funds are reported as revenues in the seller funds and as expenditures/expenses in the purchaser funds. Flows of cash or goods from one fund to another without a requirement for repayment are reported as Interfund transfers. Interfund transfers are reported as other financing sources/uses in Governmental Funds and after non-operating revenues/expenses in the Enterprise Fund. Repayment from funds responsible for particular expenditures/expenses to the funds that initially paid for them are not presented on the financial statements.

Inventories and Prepaid Expenses:

Inventories and prepaid expenses, which benefit future periods, other than those recorded in the Enterprise Fund, are recorded as expenditures during the first year of purchase. Enterprise Fund inventories are valued at cost, which approximates market, using the first-in/first-out ("FIFO") method. Prepaid expenses in the Enterprise Fund represent payments made to vendors for services that will benefit periods beyond June 30, 2012.

Short-Term Interfund Receivables/Payables:

Short-term interfund receivables/payables represent amounts that are owed, other than charges for good or services rendered to/from a particular fund in the District and that are due within one year.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Assets, Liabilities, and Equity (Cont'd):

Capital Assets:

During the year ended June 30, 1994, the District established a formal system of accounting for its Capital Assets. General Capital Assets acquired or constructed subsequent to June 30, 1994 are recorded at original cost. General Capital Assets acquired or constructed prior to the establishment of the formal system are valued at cost based on historical records or through estimation procedures performed by an independent appraisal company. Purchased or constructed Capital Assets are reported at cost. Donated Capital Assets are valued at their estimated fair market value on the date received. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets' lives are not capitalized. The District does not possess any infrastructure.

All reported Capital Assets except for Land are depreciated. Improvements are depreciated over the remaining useful lives of the related capital assets. Depreciation is computed using the straight-line method under the half year convention over the following useful lives:

<u>Asset Class</u>	<u>Estimated Useful Lives</u>
School Buildings	50
Building Improvements	20
Electrical/Plumbing	30
Vehicles	8
Office and Computer Equipment	5-10
Instructional Equipment	10-20
Grounds Equipment	15
Food Service Equipment	7-20

Compensated Absences:

The District accounts for Compensated Absences (e.g., unused vacation, sick leave) as directed by Governmental Accounting Board Statement No. 16 ("GASB 16"), Accounting for Compensated Absences. A liability for Compensated Absences attributable to services already rendered and not contingent on a specific event that is outside the control of the employer and employee is accrued as the employees earn the rights to the benefits.

District employees are granted varying amounts of vacation and sick leave in accordance with the District's personnel policy. Upon termination, employees are paid for accrued vacation. The District's policy permits employees to accumulate unused sick leave and carry forward the full amount to subsequent years. Upon retirement, employees shall be paid by the District for the unused sick leave in accordance with the District's agreements with the various employee unions.

MULLICA TOWNSHIP SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Assets, Liabilities, and Equity (Cont'd):

Compensated Absences (Cont'd):

In the District-wide Statement of Net Assets, the liabilities whose average maturities are greater than one year should be reported on two components – the amount due within one year and the amount due in more than one year.

The liability for vested compensated absences of the proprietary fund-types is recorded within those funds as the benefits accrue to employees. As of June 30, 2012, no liability existed for compensated absences in the Food Service Fund.

Deferred Revenue:

Deferred Revenue arises when assets are recognized before revenue recognition criteria have been satisfied. Property taxes for which there is an enforceable legal claim as of June 30, 2012, but which were levied to finance fiscal year 2013 operations, have been recorded as Deferred Revenue. Grants and entitlement received before the eligibility requirements are met are also recorded as Deferred Revenue.

Accrued Liabilities and Long-Term Obligations:

All Payables, Accrued Liabilities, and Long-Term Obligations are reported on the District-wide financial statements. In general, governmental fund payables and accrued liabilities that, once incurred, are paid in a timely manner and in full from current financial resources, are reported as obligations of the funds. However, contractually-required pension contributions and compensated absences that are paid from governmental funds are reported as liabilities on the fund financial statements only to the extent that they are due for payment during the current year. Bonds are recognized as a liability on the fund financial statements when due.

Net Assets:

Net Assets represent the difference between assets and liabilities. Net Assets invested in capital assets, net of related debt consists of capital assets, net of accumulated depreciation, reduced by the outstanding balance of any borrowing used for the acquisition, construction, or improvement of those assets. Net Assets are reported as restricted when there are limitations imposed on their use either through the enabling legislation adopted by the District or through external restrictions imposed by creditors, grantors, or laws or regulations of other governments. The District's policy is to first apply restricted resources when an expense is incurred for purposes for which both restricted and unrestricted Net Assets are available.

MULLICA TOWNSHIP SCHOOL DISTRICT
NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2012

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Assets, Liabilities, and Equity (Cont'd):

Fund Balance Reserves:

The District reserves those portions of Fund Balance which are legally segregated for a specific future use or which do not represent available expendable resources and, therefore, are not available for appropriation or expenditure. Unreserved Fund Balance indicates that portion which is available for appropriation in future periods. A Fund Balance Reserve has been established for encumbrances.

Revenues – Exchange and Nonexchange Transactions:

Revenue resulting from Exchange Transactions, in which each party gives and receives essentially equal value, is recorded on the actual accrual basis when the Exchange takes place. On the modified accrual basis, revenue is recorded in the fiscal year in which the resources are measurable and become available. Available means the resources will be collected within the current fiscal year or are expected to be collected soon enough thereafter to be used to pay liabilities of the current fiscal year. For the District, available means within sixty days of the fiscal year-end.

Nonexchange Transactions, in which the District receives value without directly giving equal value in return, include property taxes, income taxes, grants, entitlements, and donations. On the accrual basis, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from income taxes is recognized in the period in which the income is earned. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied. Eligibility requirements include timing requirements, which specify the year when the resources are required to be used or the fiscal year when use is first permitted; matching requirements, in which the District must provide local resources to be used for a specific purpose; and expenditure requirements, in which the resources are provided to the District on a reimbursement basis. On the modified accrual basis, revenue from Nonexchange Transactions must also be available before it can be recognized.

Under the modified accrual basis, the following revenue sources are considered to be both measurable and available at fiscal year-end: property taxes available as an advance, interest, and tuition.

Operating Revenues and Expenses:

Operating revenues are those revenues that are generated directly from the primary activity of the Enterprise Fund. For the School District, these revenues are sales for food service. Operating expenses are necessary costs incurred to provide the service that is the primary activity of the Enterprise Fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

E. Assets, Liabilities, and Equity (Cont'd):

Allocation of Indirect Expenses:

The District reports all Direct Expenses by function in the Statement of Activities. Direct Expenses are those that are clearly identifiable with a function. Indirect Expenses are allocated to functions but are reported separately in the Statement of Activities. Employee benefits, including the employer's share of Social Security, workers compensation, and medical and dental benefits, were allocated based on salaries of that program. Depreciation expense, where practicable, is specifically identified by function and is included in the Indirect Expense column of the Statement of Activities. Depreciation expense that could not be attributable to a specific function is considered an Indirect Expense and is reported separately in the Statement of Activities. Interest on long-term debt is considered an Indirect Expense and is reported separately on the Statement of Activities.

Extraordinary and Special Items:

Extraordinary Items are transactions or events that are unusual in nature and infrequent in occurrence. Special Items are transactions or events that are within the control of management and are either unusual in nature or infrequent in occurrence. Neither of these types of transactions occurred during the fiscal year.

Management Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

2. CAPITAL RESERVE ACCOUNT

A Capital Reserve Account was established by the Mullica Township Board of Education for the accumulation of funds for use as Capital Outlay expenditures in subsequent fiscal years. The Capital Reserve account is maintained in the General Fund and its activity is included in the General Fund annual budget.

Funds placed in the Capital Reserve Account are restricted to Capital Projects in the District's approved Long Range Facilities Plan ("LRFP"). Upon submission of the LRFP to the Department, a District may increase the balance in the Capital Reserve by appropriating funds in the annual General Fund budget certified for taxes or by transfer by Board Resolution at year-end of any unanticipated revenue or unexpended line-item appropriation amounts, or both. A District may also appropriate additional amounts when the excess approval of the voters has been obtained either by a separate proposal at budget time or by a special question at one of the four special elections authorized pursuant to N.J.S.A. 19:60-2. Pursuant to N.J.A.C. 6:23A-5.1(d)7, the balance in the Account cannot at any time exceed the local support costs of uncompleted Capital Projects in its approved LRFP.

The activity of the Capital Reserve for the July 1, 2011 to June 30, 2012 fiscal year is as follows:

Beginning Balance, July 1, 2011	\$ 101,000.00

Transferred By Board Resolution	
June 19, 2012	<u>100,000.00</u>
Ending Balance, June 30, 2012	<u>\$ 201,000.00</u>

The June 30, 2012 LRFP balance of local support costs of uncompleted Capital Projects at June 30, 2012 is \$404,863.00.

3. MAINTENANCE RESERVE ACCOUNT

A Maintenance Reserve Account was established the Mullica Township Board of Education for the accumulation of funds in accordance with N.J.S.A. 18A:7F-41c(1). The Maintenance Reserve Account is maintained in the General Fund and its activity is included in the General Fund annual budget. Funds placed in the Maintenance Reserve Account are to finance unanticipated General Fund expenditures required for a thorough and efficient education.

The activity of the Maintenance Reserve for the July 1, 2011 to June 30, 2012 fiscal year is as follows:

Beginning Balance, July 1, 2011	\$ 231,532.91

5. TRANSFERS TO CAPITAL OUTLAY

During the year ending June 30, 2012, the District transferred \$36,127.10 for Equipment.

6. DEPOSITS AND INVESTMENTS

The Board of Education considers petty cash, change funds, cash in banks, certificates of deposit and deposits with the New Jersey Cash Management Fund as Cash and Cash Equivalents.

Deposits

The Board's deposits are insured through the Federal Deposit Insurance Corporation ("FDIC") or New Jersey's Governmental Unit Deposit Protection Act. The New Jersey Governmental Unit Deposit Protection Act requires all banks doing business in the State of New Jersey to maintain additional collateral in the amount of 5% of the average public deposits and to deposit these amounts with the Federal Reserve Bank for all deposits not covered by the FDIC.

Bank balances at June 30, 2012 and 2011 are insured up to \$250,000.00 in the aggregate by the FDIC for each bank. At June 30, 2012 and 2011, the book value of the Board's deposits were \$2,384,751.58 and \$1,287,502.46, respectively.

B. Bonds Payable (Cont'd)

On June 9, 2011, the Board issued \$2,860,000.00 in general obligation bonds with an average interest rate of 3.230430% to advance refund \$2,769,000.00 of outstanding series bonds with an average interest rate of 4.507824%. The net proceeds of \$2,881,001.15 (after payment of \$47,400.80 in underwriting fees, insurance and other issuance costs) included an original issuance premium of \$21,001.15. Those securities were deposited in an irrevocable trust with an escrow agent to provide for all future debt service payments on the series bonds. As a result, the series bonds are considered to be defeased and the liability for these bonds has been removed from net assets.

This refunding resulted in a net present value savings of \$174,511.71. In addition, the savings resulted from the refunding were as follows:

Cash Flow Requirements to Service (Old) Debt	\$ 3,681,380.00
Less: Cash Flow Requirements for New Debt	<u>(3,471,714.25)</u>
Net Savings from Refunding	<u>\$ 209,665.75</u>

Bonds are authorized in accordance with State Law by the voters of the District through referendums. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the District are general obligation bonds.

The Bonds are not subject to redemption prior to maturity.

The Bonds are general obligations of the Board and are secured by a pledge of the full faith and credit of the Board for the payment of the principal thereof and the interest thereon and, unless paid from other sources, the Bonds are payable from ad valorem taxes to be levied on all taxable real property in the school district, without limitation as to rate or amount. The Bonds are additionally secured by the provisions of the New Jersey School Bond Reserve Act.

The District, in conjunction with the issuance of the Bonds, has agreed to undertake and provide certain information to Bondholders on a continuing basis. The Securities and Exchange Commission ("SEC") Rule 15c2-12(b)(5) "Continuing Disclosure" requirements, which the District has adopted, requires that various financial information about the District and the Municipality be provided annually to various information repositories. This requirement is effective for the fiscal years ended June 30, 2003 and thereafter and to date has been complied with.

13. PENSION PLANS

Description of Plans - All required employees of the District are covered by either the Public Employees' Retirement System or the Teachers' Pension and Annuity Fund which have been established by state statute and are administered by New Jersey Division of Pension of and Benefits ("Division"). According to the State of New Jersey Administrative Code, all obligations of both Systems will be assumed by the State of New Jersey should the Systems terminate. The Division issues a publicly-available financial report that includes the financial statements and is required supplementary information for the Public Employees Retirement Systems and the Teachers' Pension and Annuity Fund. These reports may be obtained by writing to the Division of Pensions and Benefits, PO Box 295, Trenton, New Jersey, 08625.

Teachers' Pension and Annuity Fund ("TPAF") - The Teachers' Pension and Annuity Fund was established as of January, 1955 under the provisions of N.J.S.A. 18A:66 to provide retirement benefits, death, disability and medical benefits to certain qualified members. The Teachers' Pension and Annuity Fund is considered a cost-sharing multiple-employer plan with a special funding situation, as under current statute, all employer contributions are made by the State of New Jersey on behalf of the District and the system's other related non-contributing employers. Membership is mandatory for substantially all teachers or members of the professional staff certified by the State Board of Examiners, and employees of the Department of Education who have titles that are unclassified, professional, and certified.

Public Employees' Retirement System ("PERS") - The Public Employees' Retirement System was established in January, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district, or public agency, provided the employee is not required to be a member of another state-administered retirement system or other state or local jurisdiction.

Vesting and Benefit Provisions - The vesting and benefit provisions for PERS are set by N.J.S.A. 43:15A and 43:3B, and N.J.S.A. 18A: 6C for TPAF. All benefits vest after eight to ten years of service, except for medical benefits that vest after 25 years of service. Retirement benefits for age and service are available at age 60 and are generally determined to be 1/60 of the final average salary for each year of service credit, as defined. Final average salary equals the average salary for the final three years of service prior to retirement (or highest three years' compensation if other than the final three years). Members may seek early retirement after achieving 25 years of service credit or they may elect deferred retirement after achieving eight to ten years of service in which case benefits would begin the first day of the month after the member attains normal retirement age. The TPAF and PERS provides for specified medical benefits for members who retire after achieving 25 years of qualified service, as defined, or under the disability provisions of the System.

Members always full vested for their own contributions and, after three years of service credit, become vested for 2% of related interest earned on the contributions. In the case of death before retirement, members' beneficiaries are entitled to full interest credited to the members account.

Significant Legislation - During the year ended June 30, 1997, legislation was enacted authorizing the New Jersey Economic Development Authority to issue bonds, notes or other obligations for the purpose of financing, in full or in part, the State of New Jersey's portion of the unfunded accrued liability under the State of New Jersey retirement systems. Additional legislation enacted during the year ended June 30, 1997 (Chapter 115, P.L. 1997) changed the assets valuation method from market related value to full-market value. This legislation also contained a provision to reduce the employee contribution rate by ½ of 1% to 4.5% for calendar years 1998 and 1999, and to allow for reduction in the employee's rate after calendar year 1999 providing excess valuation assets are available. The legislation also provided that the Districts' normal contributions to the Fund may be reduced based on the revaluation of assets. Due to recognition of the bond proceeds and to change in asset valuation method as a result of enactment of Chapters 114 and 115, all unfunded accrued liabilities were eliminated except for the unfunded liability for local early retirement incentive benefits, accordingly, the pension costs for TPAF and PERS were reduced.

Contribution Requirements - The contribution policy is set by N.J.S.A. 43:15A, Chapter 62, P.L. of 1994, Chapter 115, P.L. of 1997 and N.J.S.A. 18:66, and requires contributions by active members and contributing employers. Plan member and employer contributions may be amended by State of New Jersey legislation. TPAF and PERS provide for employee contributions of 5.5% of employees' annual compensation, as defined. Employers are required to contribute at an actuarially-determined rate in both TPAF and PERS. The actuarially-determined contribution includes funding for both cost-of-living adjustments, noncontributory death benefits, and post-retirement medical premiums. Under current statute the District is a non-contributing employer of the TPAF.

Contribution Requirements: (cont'd)

During the year ended June 30, 2012, the State of New Jersey contributed \$14,587.00 to the Teachers' Pension and Annuity Fund for NCGI \$135,933.00 for normal contributions, and \$302,584.00 for post-retirement medical benefits on behalf of the District. Also, in accordance with N.J.S.A. 18A: 66-66, the State of New Jersey reimbursed the District \$353,857.68 during the year ended June 30, 2012 for the employer's share of social security contributions for TPAF members as calculated on their base salaries. This amount has been included in the general-purpose financial statements, and the combining and individual fund and account group statements and schedules as a revenues and expenditures in accordance with GASB 24.

Legislation enacted during 1993 provides early retirement incentives for certain members of TPAF and PERS who met certain age and service requirements and who applied for retirement between certain dates in the 1994 fiscal year. The early retirement incentives included: (a) an additional five years of service credit for employees at least age 50 with a minimum of 25 years of service; (b) free health benefits for employees at least 60 years old with at least 20 years of service; and (c) an additional \$500.00 per month for two years for employees at least age 60 with 10 but less than 20 years of service. The District will assume the increased cost for the early retirement as it affects their district.

14. POST – RETIREMENT BENEFITS

P.L. 1987, c.384 and P.L. 1990, c.6 required Teachers' Pensions and Annuity Fund ("TPAF") and the Public Employees' Retirement System ("PERS"), respectively, to fund post-retirement medical benefits for those State employees who retire after accumulating 25 years of credited service or on a disability retirement. P.L. 2007, c.103 amended the law to eliminate the funding of post-retirement medical benefits through the TPAF and PERS. It created separate funds outside of the pension plans for the funding and payment of post-retirement medical benefits for retired state employees and retired educational employees. As of June 30, 2011, there were 93,323 retirees eligible for post-retirement medical benefits. The cost of these benefits is funded through contributions by the State in accordance with P.L. 1994, c.62. Funding of post-retirement medical premiums changed from a pre-funding basis to a pay-as-you-go basis beginning in fiscal year 1994.

The State is also responsible for the cost attributable to P.L. 1992 c. 126, which provides free health benefits to members of PERS and the Alternate Benefit Program who retired from a board of education or county college with 25 years of service. The State paid \$144 million toward Chapter 126 benefits for 15,709 eligible retired members in fiscal year 2011.

15. DEFERRED COMPENSATION

The Board offers its employees choice of the following Deferred Compensation Plans created in accordance with Internal Revenue Code Section 403(b). The Plans, which are administered by the entities listed below, permit participants to defer a portion of their salary until future years. Amounts deferred under the Plans are not available to employees until termination, retirement, death or unforeseeable emergency. The Plan Administrator is as follows:

TSA Consulting Group

16. RISK MANAGEMENT

The District is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters.

Property and Liability Insurance – The District maintains commercial insurance coverage for property, liability, student accident and surety bonds. A complete schedule of insurance coverage can be found in the Statistical Section of this Comprehensive Annual Financial Report.

New Jersey Unemployment Compensation Insurance – The District has elected to fund its New Jersey Unemployment Compensation Insurance under the "Benefit Reimbursement Method". Under this plan, the District is required to reimburse the New Jersey Unemployment Trust Fund for benefits paid to its former employees and charged to its account with the State. The District is billed quarterly for amounts due to the State. The table below is a summary of the District contributions, employee contributions, reimbursements to the State for benefits paid and the ending balance of the District's expendable trust fund for the current and the previous two years.

17. CONTINGENT LIABILITIES

Tuition

The District does not provide a high school (grades 9-12) and, as a result, is required to send students to high schools of neighboring towns. The tuition charges, on a per student basis, are calculated annually in accordance with the Statutes and are actually estimates. The Statutes allow the calculation of the actual tuition owed to be made within a two-year period after the end of the affected fiscal year. The result of the calculation may either be a refund, in the form of credits, due the District, or an amount due to the district providing the service. These adjustments are handled as they become legally determinable. There is no adjustment as of June 30, 2012 for either a refund (credit) or payable (amount due), since it is not possible at this time to determine. It should be noted that, at a future time, it is possible that significant balances could be due and owed and that provision for payment must be made immediately upon determination.

Pending Litigation

The Board's general counsel and management have indicated that the Board is not involved in any matters of litigation that would have a material adverse impact in the financial condition of the District.

18. FUND BALANCE APPROPRIATED

The District has implemented GASB 54 during fiscal year 2012.

As such, fund balance will be displayed in the following classifications depicting the relative strength of the spending constraints placed on the purposes for which resources can be used:

- Nonspendable Fund Balance – amounts that are not in a spendable form (such as inventory) or are required to be maintained intact (such as the corpus of an endowment fund).
- Restricted Fund Balance – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation.
- Committed Fund Balance – amounts constrained to specific purposes by the District itself, using its highest level of decision-making authority; to be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest-level action to remove or change the constraint.
- Assigned Fund Balance – amounts a District *intends* to use for a specific purpose; intent can be expressed by the Board or by an official or body to which the Board delegates the authority.
- Unassigned Fund Balance – amounts that are available for any purpose; these amounts are reported only in the General Fund.

Fund balance reporting is the result of State Statutes, New Jersey Department of Education regulations and motions (resolutions/ordinances) that are passed at Board meetings. The Board acts on these motions under the guidance of the District's Superintendent and Business Administrator.

18. FUND BALANCE APPROPRIATED (CONT'D)

The District's policy is to apply expenditures against non-spendable fund balance, restricted fund balance, committed fund balance, assigned fund balance, and unassigned fund balance at the end of each fiscal year, utilizing adjusting journal entries.

First, non-spendable fund balances are determined; then, restricted fund balances for specific purposes are determined (not including non-spendable amounts). Any remaining fund balance amounts for the non-General Funds are classified as restricted fund balances.

There is a potential for the non-General Funds to have negative unassigned fund balance when non-spendable amounts plus the restricted fund balances for specific purpose amounts exceed the positive fund balances for the non-General Funds.

Classification Totals

	<u>General Fund</u>	<u>Special Revenue Fund</u>	<u>Debt Service Fund</u>	<u>Capital Projects Fund</u>	<u>Total</u>
Fund Balances:					
Restricted	\$ 1,774,267.03		\$ 60,575.00		\$ 1,834,842.03
Assigned	78,540.85				78,540.85
Unassigned		\$ (47,324.00)			(47,324.00)
	<u>\$ 1,852,807.88</u>	<u>\$ (47,324.00)</u>	<u>\$ 60,575.00</u>	<u>\$ 0.00</u>	<u>\$ 1,866,058.88</u>

19. CALCULATION OF EXCESS SURPLUS

The designation for Restricted Fund Balance – Excess Surplus is a required calculation pursuant to N.J.S.A. 18A:7F-7, as amended. New Jersey school districts are required to restrict General Fund fund balance at the fiscal year end of June 30 if they did not appropriate a required minimum amount as budgeted fund balance in their subsequent years' budget. The excess fund balance at June 30, 2012 is \$552,743.94.

20. DEFICIT FUND BALANCE

The District has a deficit fund balance of \$(47,324.00) in the Special Revenue Fund as of June 30, 2012 as reported in the fund statements (modified accrual basis). N.J.S.A. 18A:22-44.2 provides that, in the event a state school aid payment is not made until the following school budget year, districts must record the delayed one or more June state aid payments as revenue, for budget purposes only, in the current school budget year. The bill provides legal authority for school districts to recognize this revenue in the current budget year. For intergovernmental transactions, GASB Statement No. 33 requires that recognition (revenue, expenditure, asset, liability) should be in symmetry, i.e., if one government recognizes an asset, the other government recognizes a liability. Since the State is recording the June state aid payment(s) in the subsequent fiscal year, the school district cannot recognize the June state aid payment(s) (on the GAAP financial statements) until the year the State records the payable. Due to the timing difference of recording the June state aid payment(s), the General and Special Revenue Fund balance deficit does not alone indicate that the District is facing financial difficulties.

CAPITAL PROJECTS FUND
DETAIL STATEMENTS

The Capital Projects Fund is used to account for the acquisition and construction of major capital facilities and equipment purchases other than those financed by proprietary funds.

PROPRIETARY FUND DETAIL STATEMENTS

Proprietary Funds are used to account for operations that are financed and operated in a manner similar to private business enterprises - where the intent of the District's Board is that the costs of providing goods or services be financed through user charges.

FOOD SERVICE FUND

This Fund provides for the operation of food services within the School District.

This section has already been included in Statements B-4, B-5, and B-6.

FIDUCIARY FUNDS DETAIL STATEMENTS

Fiduciary Funds are used to account for funds received by the School District for a specific purpose.

Agency Funds are used to account for assets held by the School District as an agent for individuals, private organizations, other governments and/or other funds.

- | | |
|---------------------------|--|
| Student Activity Fund: | This Agency Fund is used to account for student funds held at the schools. |
| Payroll Fund: | This Agency Fund is used to account for the payroll transactions of the School District. |
| Unemployment Agency Fund: | This Fund is used to account for assets to finance the cost of unemployment benefits. |

Note: N.J.S.A. 18A:7F-5d limits the amount that the District can submit for a general fund tax levy. The levy, when added to other components of the District's net budget, may not exceed the prebudget year net budget by more than the spending growth limitation calculated as follows: the prebudget year net budget increased by the cost of living or 2.5 percent, whichever is greater, plus any spending growth adjustments.

The District's basic tax rate is calculated from the A4F form which is submitted with the budget and the Net Valuation taxable. Page F46

Note: Overlapping governments are those that coincide, at least in part, with the geographic boundaries of the District. This schedule estimates the portion of the outstanding debt of those overlapping governments that is borne by the residents and businesses of Bradley Beach. This process recognizes that, when considering the District's ability to issue and repay long-term debt, the entire debt burden borne by the residents and businesses should be taken into account. However, this does not imply that every taxpayer is a resident, and therefore responsible for repaying the debt, of each overlapping payment.

- a For debt repaid with property taxes, the percentage of overlapping debt applicable is estimated using taxable assessed property values. Applicable percentages were estimated by determining the portion of another governmental unit's taxable value that is within the District's boundaries and dividing it by each unit's total taxable value.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL
REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF THE FINANCIAL STATEMENTS
PERFORMED IN ACCORDANCE
WITH GOVERNMENT AUDITING STANDARDS**

The Honorable President and
Members of the Board of Education
Mullica School District
County of Atlantic
Mullica, New Jersey

We have audited the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of the Board of Education of the Mullica School District, in the County of Atlantic, State of New Jersey, as of and for the fiscal year ended June 30, 2012, which collectively comprise the Board of Education of the Mullica School District's basic financial statements and have issued our report thereon dated August 8, 2012. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States, and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

Internal Control Over Financial Reporting

Management of the Board of Education of the Mullica School District is responsible for establishing and maintaining effective internal control over financial reporting. In planning and performing our audit, we considered the Mullica Board of Education's internal control over financial reporting as a basis for designing our auditing procedures for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Mullica Board of Education's internal control over financial reporting. Accordingly, we do not express an opinion on the effectiveness of the Mullica Board of Education's internal control over financial reporting.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect misstatements on a timely basis. *A material weakness* is

a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Board of Education's financial statements will not be prevented, or detected and corrected on a timely basis.

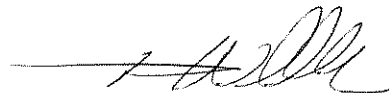

Our consideration of internal control over financial reporting was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over financial reporting that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over financial reporting that we consider to be material weaknesses, as defined above.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Mullica Board of Education's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under Government Auditing Standards and audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey.

However, we noted certain other matters involving internal control that we have reported to the Board of Education of the Mullica School District in a separate Auditor's Management Report on Administrative Findings – Financial, Compliance and Performance, dated August 8, 2012.

This report is intended for the information and use of management, the Mullica Board of Education, others within the entity, the New Jersey State Department of Education, and other federal and state awarding agencies and pass-through entities, and is not intended to be, and should not be, used by anyone other than these specified parties.

INDEPENDENT AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS THAT COULD HAVE A DIRECT AND MATERIAL EFFECT ON EACH MAJOR PROGRAM AND ON INTERNAL CONTROL OVER COMPLIANCE IN ACCORDANCE WITH OMB CIRCULAR A-133 AND NEW JERSEY OMB CIRCULAR 04-04

The Honorable President and
Members of the Board of Education
Mullica School District
County of Atlantic
Mullica, New Jersey

Compliance

We have audited the compliance of the Board of Education of the Mullica School District, in the County of Atlantic, State of New Jersey, with the types of compliance requirements described in the U.S. Office of Management and Budget ("OMB") Circular A-133 Compliance Supplement and the New Jersey State Aid/Grant Compliance Supplement that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2012. Mullica Board of Education's major federal and state programs are identified in the Summary of Auditor's Results Section of the accompanying Schedule of Findings and Questioned Costs. Compliance with the requirements of laws, regulations, contracts, and grants applicable to each of its major federal and state programs is the responsibility of the Mullica Board of Education's management. Our responsibility is to express an opinion on the Mullica Board of Education's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in Government Auditing Standards, issued by the Comptroller General of the United States; the audit requirements as prescribed by the Division of Finance, Department of Education, State of New Jersey; OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations; and New Jersey OMB Circular 04-04, Single Audit Policy for Recipients of Federal Grants, State Grants and State Aid. Those standards, OMB Circular A-133 and New Jersey OMB Circular 04-04 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal or state program occurred. An audit includes examining, on a test basis, evidence about the Mullica Board of Education's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the Mullica Board of Education's compliance with those requirements.

The Honorable President and
Members of the Board of Education
Mullica School District
County of Atlantic
Mullica, New Jersey
Page 2

In our opinion, the Board of Education of the Mullica School District, in the County of Atlantic, State of New Jersey, complied, in all material respects, with the compliance requirements referred to above that could have a direct and material effect on each of its major federal and state programs for the fiscal year ended June 30, 2012.

Internal Control Over Compliance

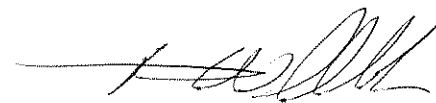

The management of the Board of Education of the Mullica School District is responsible for establishing and maintaining effective internal control over compliance with the requirements of laws, regulations, contracts, and grants applicable to federal and state programs. In planning and performing our audit, we considered the Mullica Board of Education's internal control over compliance with the requirements that could have a direct and material effect on a major federal or state program in order to determine the auditing procedures for the purpose of expressing our opinion on compliance and to test and report on internal control over compliance in accordance with OMB Circular A-133 and New Jersey OMB Circular 04-04, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Mullica Board of Education's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal or state program on a timely basis. A material weakness in internal control over compliance is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal or state program will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses. We did not identify any deficiencies in internal control over compliance that we consider to be *material weaknesses*, as defined above.

NOTES TO SCHEDULES OF FEDERAL AWARDS AND
STATE FINANCIAL ASSISTANCE

June 30, 2012

1. General

The accompanying Schedules of Expenditures of Federal Awards and State Financial Assistance include federal and state award activity of the Board of Education ("Board"), of Mullica School District ("District"). The Board is defined in Note 1 to the Board's basic financial statements. All federal and state awards received directly from federal and state agencies, as well as federal awards and state financial assistance passed through other government agencies, are included on the Schedules of Expenditures of Federal Awards and State Financial Assistance.

2. Basis of Accounting

The accompanying Schedules of Expenditures of Awards and Financial Assistance are presented on the budgetary basis of accounting with the exception of programs recorded in the Food Service Fund, which are presented using the accrual basis of accounting. These bases of accounting are described in Note 1 to the Board's basic financial statements. The information in these schedules is presented in accordance with the requirements of OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Therefore, some amounts presented in these schedules may differ from amounts presented in, or used in the preparation of, the basic financial statements.

3. Relationship to Basic Financial Statements

The basic financial statements present the General Fund and Special Revenue Fund on a GAAP basis. Budgetary comparison statements or schedules ("RSI") are presented for the General Fund and Special Revenue Fund to demonstrate finance-related legal compliance in which certain revenue is permitted by law or grant agreement to be recognized in the audit year whereas, for GAAP reporting, revenue is not recognized until the subsequent year or when expenditures have been made.

The General Fund is presented in the accompanying Schedules on the modified accrual basis, with the exception of the revenue recognition of the last state aid payment in the current budget year, which is mandated pursuant to P.L. 2003, c.97.(A3521). For GAAP purposes, that payment is not recognized until the subsequent budget year due to the State deferral and recording of the last state aid payment in the subsequent year. The Special Revenue Fund is presented in the accompanying Schedules on the grant accounting budgetary basis which recognizes encumbrances as expenditures and also recognizes the related revenues, whereas the GAAP basis does not. The Special Revenue Fund also recognizes the last state aid payment in the current budget year, consistent with N.J.S.A. 18A:22-4.2.

The net adjustment to reconcile from the budgetary basis to the GAAP basis is \$(21,045.00) for the General Fund and \$20,313.81 for the Special Revenue Fund. See the Notes to Required Supplementary Information for a reconciliation of the budgetary basis to the modified accrual basis of accounting for the General and Special Revenue Funds. Awards and financial assistance revenues are reported in the Board's basic financial statements on a GAAP basis as presented on the following page:
